## Sound Designer - IN TOUCH GAMES LIMITED Halesowen, MID B633BL

### About the Job

**Job title:** Sound Designer : eGaming.

**Location:** Birmingham, Halesowen (+ in-house relocation assistance).

**Salary:** £20,000 - £23,000 + benefits (inc private pension, flexible working hours, bi-annual salary reviews, free onsite gym, free daily breakfast/lunch + much more...)

**Keywords:** Sound Design, Audio Design, Music, Sound Artist, MIDI, Digital Audio, Show Reel, Gaming, Birmingham.

Sound Designer with Musical Composition, MIDI, Digital Audio Workstation and Sound Design expertise is highly sought by a multiple award winning games studio based in Birmingham who are the UK's largest privately owned mobile e-gaming company! We currently have just over 220+ employees here at our Birmingham HQ and we offer some of the UK's best career progression plans and earning potential with bi-annual salary reviews!

In this position, you will compose, record, mix and master musical themes and sound effects and have responsibility for the creation of in-game audio assets for our suite of mobile, web and tablet based games. You'll work closely with our creative and development teams to implement audio into games, liaise with development and product QA to resolve audio bugs and issues whilst recording and editing sound effects for our in-house sound library.

You will be proficient with creating music solely using MIDI and virtual instruments within a DAW (Digital Audio Workstation) and have access to our high-tech recording studio which includes equipment and high-spec facilities to ensure the highest possible quality audio for our games across multiple devices and platforms!

#### Key skills we're looking for?

- Ability to compose, record, mix and master original music loops in many genres.
- Have an excellent show-reel of high-quality, relevant audio for games (both music and sound design).
- Proficiency using Digital Audio Workstations (ideally Ableton Live) and a range of plug ins.
- Excellent knowledge of game audio implementation.

#### Bonus points for?

- Experience with Game Engines (Unity, Unreal etc).
- Experience with Middleware tech (such as Wwise and FMOD Studio)

Therefore, if you are a highly skilled and experienced sound designer with musical composition, sound design and DAW expertise and you would like to join a multiple award winning eGaming studio who have been accredited as one of the 'Top 1000 Companies to Inspire Britain', been recognised by the BBC as a top technology employer and have a 1 star accreditation as a 'Top Company to Work For' then send in your CV today for review!
